

FOR IMMEDIATE RELEASE

### Chicagoland Aviation Firm Names New VP of Operations

Valparaiso, IN – 1/17/20 – [sage-popovich, inc.](#) (SPI), a global aviation consulting and asset management provider headquartered in Valparaiso, IN, with flight operations out of the Gary/Chicago International Airport, is pleased to announce the promotion of Petar Todorovic to the position of Vice President of Operations over SPI's entire family of companies. Effective immediately, Todorovic will assume responsibility for the company's daily operations as owner Nick Popovich transitions to an advisory role with the firm.

"I am excited to turn over sage-popovich's daily operations to Petar," said Nick Popovich. "We plan on having exceptional growth and expansion over the coming years and I'm confident in Petar's abilities as the right fit for the next chapter of our history. My advisory role will guide the growth of our business and will support Petar as he takes the lead."

Todorovic graduated from Purdue University in 2014 with a Bachelor of Science in Aviation Management and Business minor. His career with sage-popovich began with an internship after graduation where he worked through all facets of the company. He is proficient in asset management and recovery, flight operations, and the aviation market in addition to his qualifications as an ASA-certified appraiser and licensed FAA dispatcher. Todorovic's most recent position was serving as SPI's Asset Valuation Manager.

"Our staff, along with myself, are eagerly planning and getting active in expanding sage-popovich's global footprint," said Todorovic. "We have been working very closely alongside Nick the last 1.5 years on all projects and assignments and are excited about new growth opportunities in our market."

#### About sage-popovich, inc. –

[sage-popovich, inc.](#) (SPI) is the world's largest specialist in the recovery of aviation related equipment. SPI expanded its operations to provide asset management, monitored project-oriented contractual obligations and expertise in all phases of airline and charter operations - with complete technical capabilities.
